Bona® Performance Multilayer Cured Matte Urethane

Color Depth Technology

- Dark colors permeate through the Sawnply wear layer.
- Out perform products that use dark stains which are only on the surface.

Optima™ Balanced Construction

- Matching hardwood wear layer and back layer perfectly balance the product, keeping the surface flat and eliminate cupping
- 100% pure hardwood construction- no plywood containing excessive glues
- More stable than plywood cores in all climates
- Solid hardwood core slats offer unsurpassed stability to control expansion and contraction

CLEAN MATTERS

WHAT IS MICROBAN?

- Microban® is the global leader in antimicrobial and odor protection.
- Microban® technology inhibits the growth of bacteria, mold and mildew on household products, keeping your home cleaner and reducing odors.

HOW IT WORKS

- Microban® odor-control and antimicrobial agents are integrated into the surface of Artistry Flooring during the manufacturing process.
- This patented technology never washes off or wears away and stays active for the life of the product.
- Microban® antimicrobial agents prevent stain-and-odor-causing microbes from growing or reproducing. On an unprotected flooring surface, bacteria can double in numbers every 20 minutes.
- By inhibiting the growth of bacteria, mold and mildew, Microban® technology keeps your floor cleaner between cleanings.
- Microban® technology helps reduce odors caused by pet urine on Artistry hardwood.

This product is designed and hand finished in Los Angeles, CA. These handcrafted colors require up to 6 individual steps to achieve the beautiful multiple layered finish.

Artistry XL Planks

Artistry Hardwood offers the longest average length plank in the industry. In each carton of Artistry Hardwood flooring, at least 50% of the square footage will be represented as full-length planks (see diagram below). Most other products in the industry will use the language "up to" but never specify how many of the long planks are provided in each carton. Longer planks provide greater visual continuity to your space and show the true unique beauty of mother nature.
